

## ANOTHER FOR CHAMPS

Defeated Tigers Again Easily  
5 to 2.

## WINTER PITCHED WELL.

New York Americans Continue Their  
Winning Streak Also, Defeating  
Chicago, Although Out-  
batted.

Boston, Aug. 12.—The Champions  
took another game from the Tigers yester-  
day afternoon, the score being 5 to 2. Winter  
pitched a good game, for the home team, keeping the seven hits  
by the visitors well scattered.

Boston scored twice in the second on  
Stahl's single, Freeman's safe bunt, Unglaub's  
sacrifice and Criger's hot shot over second. Parent's error allowed  
the visitors to score once in the third when  
Jackson had singled and made second on Selbach's error. They  
also tied the score in the fourth on a single,  
a sacrifice, a wild pitch and an out.

In the same inning Freeman walked  
and took second on Unglaub's hit in him and  
Freeman scored when Winter's boulder struck  
O'Leary in the chest. Burkett made a home run  
in the fifth, and the last score was made in  
the seventh on Selbach's single, an out and a  
single by Burkett.

### WANTS VERMONT DIVORCE.

Wife of New York's Acting Mayor  
Brings Suit in Rutland.

Rutland, Aug. 12.—The divorce case of  
Eda Olive Fornes against Charles V. Fornes,  
president of the board of aldermen of New York  
city and acting mayor, will probably be brought up  
at the September term of the Rutland county  
court. Before the case is tried, however, it will  
be necessary for Mrs. Fornes to establish a  
residence in this county and it is understood that  
she has done so. The case was filed with County  
Clerk H. A. Harmon last March, the grounds  
being, according to the deputy clerk, adultery and  
other charges. James A. Merrill of this city and  
W. B. C. Stickney of Bethel are attorneys for  
Mrs. Fornes. No attorneys for Mr. Fornes have yet  
appeared in the case.

### RUMORS IN THE FIELD.

Story of an Expected Meeting of Oyama  
and Linevitch.

London, Aug. 12.—The St. Petersburg  
Telegraph Company says that despatches from the  
front affirm that Marshal Oyama, Prince Kanin,  
commander of the Japanese Imperial Guard, and the  
British, French and American military attaches have  
arrived at Chantafoo, with the object of making  
preparations in anticipation of a ceremony con-  
sequent upon an expected declaration of peace.

The Japanese have repaired the railway north of  
Chantafoo to facilitate a meeting between Marshal  
Oyama and Gen. Linevitch.

### CZAR'S HINT TO ARMY.

He Makes a Significant Visit to Krasnoye-Selo.

St. Petersburg, Aug. 12.—The czar went  
after midnight last night, from St. Petersburg to  
Krasnoye-Selo, the great permanent military camp  
where the depot of the imperial guard regiments is  
situated. He will return to Krasnoye-Selo in a  
declaration of his full reliance on the army.

### CONQUERING SAKHALIN.

Japs Report the Surrender of 118 More  
Russians.

Tokio, Aug. 12.—It is officially announced  
that 118 Russian officers and men surrendered to the  
Japanese on Aug. 8 at Mora, in the island of Sak-  
halin.

## Catarrh

Whether it is of the nose, throat, stomach,  
bowels, or more delicate organs, catarrh is  
always debilitating and should never fail of  
attention.

It is a discharge from the mucous mem-  
brane when kept in a state of inflammation  
by an impure, commonly scrofulous, con-  
dition of the blood.

## Hood's Sarsaparilla

Cures all forms of catarrh, radically and  
permanently—it removes the cause and  
overcomes all the effects. Get Hood's.

### BASE HITS.

Frank Dunn, the owner of the Boston  
Nationals, says he will have a great team  
in Boston next year.

Tom Walker is the only Cincinnati  
player who has not made an error this year.  
Joe Kelley has only made two in thirty-five  
games.

Fred Tenney says that the split ball  
injured Wilhelm's delivery to that extent  
that he requested him to omit it from his  
baseball repertoire.

Brooklyn won five games out of sixteen  
from New York this year. Last season the  
series stood nineteen to three in favor of the  
Giants.

Dave Brain batted for about 250 while  
with St. Louis. It is a good wager he will add  
many a point to that figure while with the  
Pittsburgs.

Shortstop Abattichio, whose early season's  
performance with the stick was very poor, is  
now lacing the leather hard for Tenney's  
Boston tribe.

Sandow Mertes, New York Nationals, has  
improved a good deal in his batting lately—  
sixteen safeties in nine games—and his hitting  
has been timely too.

Graham, the outfielder loaned to Scranton  
by the New York National league club, recently  
jumped to the Altoona team of the Tristate  
league and a day later jumped back to Scranton.

Frank Bowerman of the New Yorks is being  
praised as a "man of steel," in opposition to  
McGinnity's "iron man" sobriquet, because he  
refuses to get out of the game even when he is  
badly hurt.

### THINGS THEATRICAL.

John Drew is at his country place on Long  
Island.

Wilton Lackaye's tour in "The Pit" is to  
take him as far west as San Francisco.

Katherine Florence will be Nat Goodwin's  
leading woman in "The Beauty and the Barge."

Miss May Robson has been engaged by  
Charles Frohman for the support of Francis  
Wilson.

Pauline Hall goes back to her early love,  
the comic opera stage, next season. She has  
written her own play.

William Collier triumphed so signally in  
London that he will play "The Dictator" all  
summer at the Comedy theater.

William Gillette is finishing a new play in  
London and on his return will take a cruise on  
his house boat, the Aunt Polly.

"Mary, Mary, Quite Contrary," is the title  
of Henrietta Crossman's new comedy for next  
season. Boston will be the first large city visited.

Ada Rehan is to remain under the Shubert  
management. She is to appear in George Bernard  
Shaw's comedy, "Captain Brassbound's Conversion."

### THINGS THEATRICAL.

Maude Adams is now in good health again.

Anna Fitzhugh has made a decided success  
in vaudeville.

John Drew is to have a new English play  
for the coming season.

"The College Widow," the great comedy  
success by George Ade, will be toured throughout  
the west.

Henry Miller says vaudeville should be given  
higher consideration than that the public generally  
awards it.

Sarah Bernhardt is to produce no less than  
ten plays during her coming tour of the United  
States—her farewell tour.

Mrs. Fiske is to appear again in "Tess," one  
of her greatest successes. Other revivals will  
follow "Tess" at the Manhattan theater, New York.

"You can say all you want to about Art with a  
big A," says a leading manager, "but it cannot be  
separated from commercialism in theatrical affairs."

Richard Mansfield is to produce "Macbeth"  
next season. L. Rogers Lytton, recently a leading  
man with E. H. Sothern, will be a member of his  
company.

### Pet Lambs in Iceland.

In Iceland, that country of gentle and old  
fashioned customs, it has always been the fashion  
to present to the baby when its first tooth  
appeared a lamb, to be its very own, cared for  
and tended as no other pet could be and never to  
be parted with.

### The Roses of Britz.

Britz, a suburb of Berlin, is one large rose  
garden. The number of roses cut daily in season is  
about 15,000.

### Pecan Nuts.

To remove pecan meats without breaking them,  
pour boiling water over the nuts and let them  
stand until cold. Then crack with a hammer,  
striking the small end of the nut.

## THE HIGHEST MARK REACHED

Record of New Fever Cases  
at New Orleans.

## FUNERAL OF ARCHBISHOP

French Asylum in Danger—Three Patients  
Found In It—First Public Institution to Suffer  
From Plague.

New Orleans, Aug. 12.—The fever situation  
shows no material change, though the record of  
new cases in the preceding 24 hours, as disclosed  
yesterday, is highwater mark during the present  
visitation. The federal surgeons are not in the  
least surprised at the number and Dr. White expects  
a large report daily for some time yet.

The official yellow fever report up to noon  
is as follows: New cases in New Orleans since 6 p. m.  
Thursday, 12; total cases to date, 759; deaths  
yesterday, 3; total deaths, 127.

Among the cases reported are three in the  
French Asylum on St. Ann street. These are the  
first cases thus far reported in any of the public  
institutions outside of the hospitals.

Following a solemn requiem mass, participated  
in principally by downtown members of the  
church, the body of Archbishop Chapelle was laid  
to rest yesterday. Burial was made in a crypt  
under the Cathedral, where lie the bodies of six of  
the predecessors of the archbishop.

### DEED FILED.

Ethan Allen Park Now the Property of the  
Vermont Society S. A. R.

Burlington, Aug. 12.—The deed has been  
filed in the city clerk's office, by which William J.  
Van Patten conveys to the Vermont Society of the  
Sons of the American Revolution 115,117 acres of  
land situated on the easterly side of North avenue.  
This is the portion of the Ethan farm which  
includes Indian Rock, the site of the memorial  
tower to be dedicated next Wednesday. The  
conveyance is made subject to two conditions:  
First, that in the event that the incorporated  
society, to which the property is deeded, shall  
cease to exist, the ownership and title to the  
property shall pass to and be vested in the  
corporation of the city of Burlington. Second,  
that the property shall be forever kept for the  
use of the public as a public park and be always  
subject to the care, management and control of  
the city of Burlington for such purpose.

### DEPENDS ON HOLES.

The Bigger They Are the Better the Cheese,  
Says Inspector.

"It is not so much the quality of the cheese,  
but the quality of the holes in it that determines  
whether it is good or bad," said E. H. Craven,  
clerk of the State dairy and food department. "If  
the holes are good and big it is a definite  
indication of a good cheese."

Fifty plump, creamy cheeses, and 100  
pails of rich, yellow butter stood in a long row  
at the R. S. Webb cold storage plant on Saturday,  
and the nine inspectors in white overalls and  
jackets passed up and down sniffing suspiciously  
here, nibbling cautiously there, and pronouncing  
sentences with epicurean fastidiousness.

"Now that one is just like mother used to  
make," remarked another one of the inspectors  
as he took a big plug from the heart of a fat  
cheddar and bit a generous piece from one end.  
"This one over here is no good, though. See the  
little holes all through it? That means that the  
milk was dirty."

The cheeses are marked according to class.  
There is the cheddar, the Michigan and the  
salt Michigan. Each exhibit is marked as to  
flavor, texture, saltiness and general appearance.  
The results are tabulated and sent to the  
various manufacturers. No chemical tests are  
considered necessary.

The butter is graded in much the same way;  
50 per cent. being allowed for perfect flavor, 25  
for texture and 25 for color and cleanliness. As  
each pail is tested, it is numbered and a small  
vial of the contents taken to be sent to the State  
laboratory at Lansing, where the test for  
overrun is conducted. The test is made by  
separating the butter into its three constituents,  
pure butter fat, casein and water. The latter are  
called the overrun, of which the law allows only  
16 per cent.—Detroit News.

### For Rheumatism.

For rheumatism try the very simple cure  
of boiling water. Take at least a pint before  
retiring at night. The object of taking boiling  
water late at night is that during the hours you  
are resting and the digestion is not tried the  
boiling water can do its work on the gastric  
juices.

### A Billion.

The word "billion" in England and the colonies  
means a million millions. In France and on the  
continent as well as in the United States it means  
a thousand millions.

### Public Proofreading.

Printers of the olden days used to chain  
copies of their books outside their offices, and if  
any passing scholar detected an error he was  
rewarded according to its magnitude—a cup of  
wine for a broken letter, a cup of wine and a  
plate of beef for a turned letter and the like.

when overheated from a walk.

### Coal Tar.

Coal tar is a valuable color producer.  
Sixteen shades of blue, the same number of  
yellow, twelve of orange, nine of violet, besides  
numerous other colors and tints, can be produced  
from it.

### Spanish Colonization.

The Spanish colonization period began with  
the discovery of America, and the first colony was  
Hispaniola.

### Precocious Schubert.

Schubert was precocious. He learned to play  
both piano and violin at five years of age and  
was put under the care of the village organist,  
who soon said: "I can teach him nothing. When-  
ever I wished to give him something fresh he  
knew it already."

### New Shoes.

New shoes are often difficult to clean. Take  
a cut lemon, rub it over the leather and then  
leave the shoes to dry, when they will be found  
to take the polish beautifully.

### Men's Necks.

According to the British Medical Journal,  
men's necks are longer than they used to be.

### The Barber's Art.

The barber's art in Europe dates from the  
time of Alexander the Great, B. C. 330. He  
ordered every soldier to shave lest the beard  
should give a handle to his enemies.

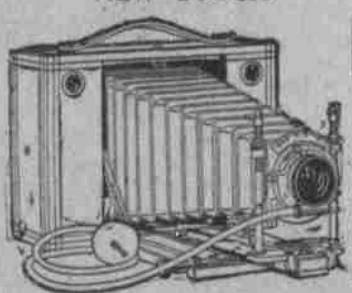

### Government Note Portraits.

In 1875 congress passed a law forbidding  
the engraving of the portraits of living men  
upon postage stamps, note or other government  
securities after that date. Previous to that time  
the honor had been given to several men of  
more or less political importance.

### CLEVELAND NOT RICH.

Income of Former President Declared  
To Be Only \$5,000 a Year.

New York, Aug. 12.—A Wall street  
man who has known Grover Cleveland for  
nearly twenty years and has said  
and written many bitter things about  
the former President surprised some  
of his friends yesterday by declaring  
that Mr. Cleveland instead of being  
wealthy, as is generally supposed, is  
comparatively poor.

"I happen to know a good deal  
about Mr. Cleveland's financial af-  
fairs," said he, "and his income is only  
a little more than \$5,000 a year. That  
is not much for a man who has to  
support a family and live in the style  
befitting a former President of the  
United States. The public thought Mr.  
Cleveland saved some of the salary he  
received as President. He did not. He  
was President eight years. At \$50,000  
a year that means 400,000. Mr.  
Cleveland had a smaller fortune  
when he retired from the White House  
than when he entered it. He was  
credited with making a lot of money  
out of real estate speculations in the  
outskirts of Washington. His real  
estate operations were confined to the  
purchase of one house—Red Top—and  
the sale of it at a price below that  
which he paid for it."

"Some persons think he made money  
through the bond deals of Morgan  
and Benedict while he was President.  
He did not make a penny. I am not  
one of Cleveland's admirers, but I  
must give credit to him for being  
above anything of that sort. He would  
go a long way for a friend, but he  
is the soul of honesty."

"Mrs. Cleveland has some property  
which came to her from the Polson  
estate, but it is not much. The in-  
come from it is a few thousands a  
year at the outside."

The Wall street man was asked if

## KIDNEY SUFFERERS!

HERE'S A GREAT OFFER

If you have given up in despair after trying  
other remedies for the cure of kidney and bladder  
troubles, here is an offer that your fairness will  
appreciate. Try Calceum Solvent. Dr. Ken-  
nedy's new remedy for kidney, bladder and liver  
troubles, with our promise to refund the money if  
it fails to cure. Its wonderful power to cure dis-  
eases of the kidneys and bladder is the happy re-  
sult of the efforts of that skilled physician and sur-  
geon, Dr. David Kennedy, to make a medicine that  
would dissolve and expel from the system stones,  
gravel and uric acid. In this way Calceum Sol-  
vent not only cures the disease, but also removes  
all irritating causes. It is not a patent medicine,  
it is a prescription used in Dr. Kennedy's private  
practice, with uniform success. Write to The Cal-  
ceum Co., Kingston, N.Y., for free treatment bottle.

E. A. Brown, Barre, Vt.

Mr. Cleveland had not made a mis-  
take in becoming one of the Ryan  
trustees of the Equitable.

"Maybe so," he replied, "but if any-  
one supposes Grover Cleveland went in-  
to that affair without knowing what  
he was doing he is mistaken. It is  
hard to fool him. He is blunt and  
positive. He has his eyes open all the  
time. Whatever salary he gets as  
trustee he will earn. If he had wanted  
a position that was a sinecure and  
that would bring him big money he  
could have had hundreds of them, but  
he is jealous of his good name and  
reputation, and I am free to confess  
that in my opinion he accepted the  
offer made by Thomas F. Ryan, not  
from any monetary consideration, but  
from a belief that he could perform a  
great public service to the Equitable  
policy holders."

### SAW-MILL DESTROYED.

Fire Started From Engine Yesterday  
Afternoon.

Jeffersonville, Aug. 11.—The large  
lumber mill of George Griswold in this  
village together with the machinery was  
entirely destroyed by fire yesterday  
afternoon. The fire was started from  
the engine, and owing to the dryness of  
the material was beyond control when dis-  
covered. The fire was confined to the  
mill and none of the lumber was lost.  
Mr. Griswold is away and no estimate  
is given of the loss.

### Changed Conditions.

Had it been in the West during the  
palm days of the Quantrell gang, or  
when the James and Younger boys ex-  
ercised the prerogatives of the six  
shooter and the bowie knife, there would  
have been a wild rush, the crackle of  
the deadly Colt, blood spilled and treas-  
ure carried away by daring free-boot-  
ers, with the attendant excitement of  
pursuing posse and "limb parties" for  
the unsuccessful road agents. But  
when \$1,000,000 is moved a block along  
the busiest thoroughfares of Columbus  
at midnight all the trouble experienced  
is in the unloading of heavy safety  
deposit boxes and all the guard necessary  
is two policemen, whose only weapons  
for service were their maces.

The unusual moving of treasure to  
the amount of a million and perhaps  
more was necessitated because the Na-  
tional bank of Commerce has outgrown  
its old quarters in the Clinton build-  
ing.—Columbus Dispatch.
